

My Book About Land & Water

By _____

A hill is a raised area or mound of land.

A mountain is a very tall piece of land that is higher than a hill.

A valley is a low place between mountains.

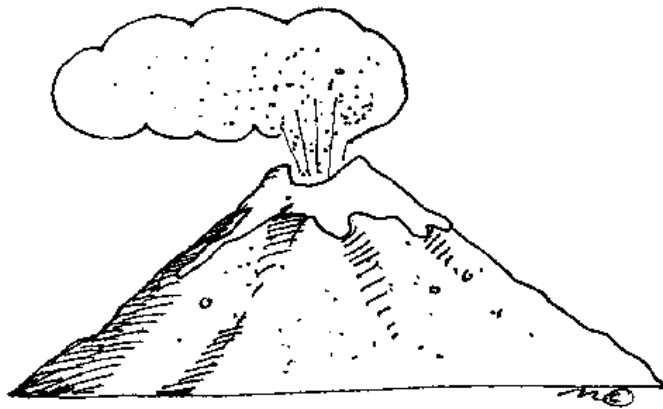

Plains are flat lands that are often good for farming.

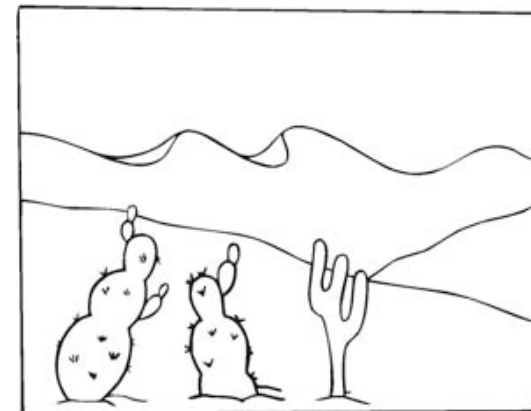

An island is a piece of land surrounded by water on all sides.

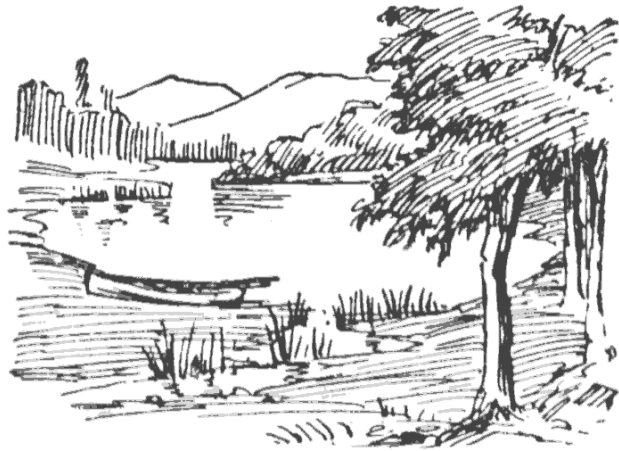

A volcano is a mountain that can erupt hot lava.

A desert is a very dry area that receives little rain.

A lake is a large body of water surrounded by land.

A river is a large, flowing body of water that usually empties into a sea or ocean.

Oceans are large bodies of salt water that cover most of the Earth.

A waterfall is a place where flowing water rapidly drops as it flows over a high place.
